FOREWORD

Welcome to the 2018 Networking Initiative Workshop “**The evolving image of urban society in ASEAN**” organized by the Universitas Pembangunan Jaya and supported by the Humboldt Foundation through the Humboldt Alumni Award and the Ministry of Research, Technology, and Higher Education of Indonesia. This workshop, which serves as the first part of the 3-year networking initiative program, will cover five main issues faced by the urban society: 1) Urban Development, 2) Urban Growth, 3) Urban Health and Society, 4) Urban Culture, and 5) Urban and the Future. Participants with diverse background will collaborate to share ideas and insights on these challenges and produce: 1) a white paper on the ASEAN Urban network, 2) drafts of joint proposals, and 3) mind maps of research collaborations.

We hope that we will have fruitful discussion during the workshop. We wish you a pleasant and memorable time during your stay in Jakarta.

Yours sincerely,

Eddy Yusuf
Organizing Committee
